d) Flat

Question One b

Who is the First president of USA
a) Barack Obama
b) Donald Trump
c) Theodore Roosevelt

Question Two
Briefly explain the necessary steps needed for Risk Management

Question Three
Write an html page that will ask user for the github username and fetch user's github profile using the free github profile api and after a successful display of user data. User will be asked first name, last name, age, gender and nationality then sends the data to this api endpoint "http://127.0.0.1:8000/api/user-register". Make sure to add form validation and better UI.
